Step 1:

Checklist review and journal selection.

There is a limit of 3 submissions under review at any one time.

* *Required information is marked with an asterisk.*

***A. Submission Checklist**

This checklist shows the mandatory requirements for all submissions. Please check the boxes, to confirm that you have complied.

☑ The submission has not been previously published in English. If published in another language, you have entered details in 'Notes to the Editor' below.

☑ The article is not currently before another journal for consideration.

☑ If the article was previously submitted to another journal, you have provided an explanation in 'Notes to the Editor' and you have sent formal written evidence of the rejection or withdrawal of the article from the original place of

submissions to submissions@inderscience.com.

☑ If the article is based on a conference paper, you have read and met the requirements in Author guidelines - Preparing Articles. You have included the statement "This article is a revised and expanded version of a paper entitled [title] presented at [name, location and date of conference]".

☑ You have explained any exceptional circumstances in 'Notes to the Editor'.

☑ You have read the Author guidelines page and your article meets the formatting requirements outlined in the Preparing articles page. You have read and agree to the Ethical Guidelines for Authors (PDF) and taken any appropriate actions.

☑ Your article is in PDF or Microsoft Word format. Maximum file size is 8MB. PDF is preferred for faster review.

☑ **IMPORTANT** - Because this article will be peer reviewed, you have removed the names, email addresses, affiliations and biographical notes of all the authors as well as any acknowledgements from the content of your article. BUT you have not removed the title, abstract and keywords.

If we find authors' names or identifications in your article, your submission will be delayed, and consequently its review will take longer, as your article will be put last in the review queue. The same will happen if we do NOT find the title, abstract or keywords.

*B: Declarations

Use of AI Technology

If you have used AI technology in developing, writing, generating or editing your paper, you need to insert a statement under the heading 'Declarations' (before your list of References), describing the technologies used and the purpose.

☑ I understand.

Conflicts of Interest Declaration

You must insert a declaration in your paper concerning conflicts of interest. If no conflicts of interest are present, please insert the following wording under the heading ‘Declarations’ (before your list of References):

All authors declare that they have no conflicts of interest.

If conflicts are present, please outline them under the heading ‘Declarations’ (before your list of References). Please ensure that your declaration does not identify you as the author of the paper. Read more about conflicts of interest here.

☑ Yes, I have included a Conflicts of Interest Declaration in my paper.

Informed Consent Declaration

You must include an informed consent declaration in your paper if your research involved human participants in any way. Read more about informed consent declarations here.

○ Yes, my research involved human participants and I have included an Informed Consent Declaration under the heading 'Declarations' (before my list of References).
